Evaluating Sources

Accuracy
Can facts, statistics or other information be verified?
Do there appear to be errors on the page (i.e. spelling, grammar, facts?)

Relevance
Does the information directly support the thesis or help to answer the question?
Can it be eliminated or ignored because it simply does not help?

Credibility
Who is the author?
What evidence is offered of his or her knowledge?

Scope & Purpose
Does this source address the thesis in a comprehensive way?
Is it material that can easily be read and understood?

Source
Is the information based on primary or secondary sources?
Did the author document his or her sources?
What kind of links or further reading did the author provide?

Date
Does this project need current information?
When was this webpage created?

Reliability
Does the source present a particular view or bias?
Is the information affiliated with an organization that has a political or social agenda?
